

THE QUAD CITY BRITISH AUTO CLUB

The Quad City British Auto Club is a group of people enthusiastic about the preservation, restoration, driving, and enjoying of British motor vehicles. These range from pre-World War II motorcycles to new Jaguars, from the very familiar MGBs and TR4s to much more rare Lotuses, from the mild Midgets and Sprites to the high-performance Tigers and AC Cobras.

We welcome all enthusiasts whether they currently drive a British vehicle, are working on one, or just wish they had one. We schedule regular social events at local restaurants and plan drives when the weather permits.

The **QCBAC Heartland British Autofest** is held each August to display our examples of British engineering to the interested public and has attracted participants from as far away as 1000 miles from the Quad Cities.

If you would like to enter a British vehicle into the Heartland British Auto Fest, go to QCBAC.com, download and print the entry form and mail it to the addressee on the form.
