In the fall of 1983, two young boys were abducted, tortured, and murdered. This tragedy which stretched over a four-month period generated an enormous amount of fear in both parents and children in the entire Sarpy County and Omaha Metropolitan area. Almost 200 law enforcement officers and scores of volunteers worked tirelessly seven days a week to catch and stop the killer. Those boys were Danny Jo Eberle and Christopher Paul Waldon. The suspect, after being caught by the task force, would later confess, was found guilty and executed thirteen years after the crimes.

The pain and suffering endured first and foremost by the family, friends, those who were involved in the case, and much of the public lives on and still does to this day. A memorial is being built to honor not only those children as victims but their families, friends, and loved ones. It will also serve as a reminder that in every case there are victims and all of us need to remember that their pain and suffering in many cases does not subside because of an arrest or because someone is found guilty. The goal is to raise funds to be administered by the Sarpy County Victim/Witness Unit to help those individuals that are in need.

We hope the car show becomes an annual fundraiser for the Eberle Waldon Victim's Memorial. Please help us and put forth an entry or come and enjoy the car show on October 16th, 2022. - Sarpy County Sheriff Jeff Davis
